Reid Handawa : A Celebration of Music and Magic combined

Under the guidance of the Students' Union and the Rekha music circle of UCSC, Reid Handawa took place in the New Arts Theater of University of Colombo on 21st of December 2023, filled with music-loving students to witness the magical event in place. The event was graced by many academic and non-academic personnels as distinguished guests.

Song after song followed by dance performances brought a sense of excitement among the audience, leading the audience to break into applause every time at the end of a singing or a dancing item.

The voices of the singers along with the melodies of musicians present on stage, notes and chords echoed throughout the hall, keeping their audience captive in a trance-like state through their soulful songs and they kept the crowd moving to their infectious energetic beats.

The crowd were unable to take their eyes off the stage as the wonderful dancers performed various types of dancing items on stage in an energetic and upbeat manner as well as in a groove-oriented and stylish manner moving in unison.

These items were performed by the 1st, 2nd and 3rd year students who underwent weeks of practice to bring their performances to perfection.

This musical event was itself an opportunity for our students to showcase their talents, to step into the limelight and pour out their heart and soul into this event, creating a vibrant energy among the audience. It also provided an occasion for the students in the audience to show appreciation of the talents of their fellow colleagues, uplifting their spirits throughout the event. The seamless flow of the event was made possible due to the unity and commitment of the UCSC community as well as the enthusiastic participants who enjoyed the event till the end.
